

LEONARDO GÓMEZ

Senior Frontend Engineer | React, Next.js & TypeScript

Email: rgleo89@gmail.com | Phone: +375 33 990 8218 | LinkedIn: [linkedin.com/in/leonardo-gomez-rosa-5756a5bb](https://www.linkedin.com/in/leonardo-gomez-rosa-5756a5bb)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 7+ years of experience building production React and Next.js applications across sports tech, classified marketplaces, B2B platforms, and mobile-adjacent products. Proven impact in performance and delivery: 35% average load-time reduction, 38% faster product delivery, 40% faster legacy-app load times after Angular-to-React migration, 30% higher engagement, and 25% TTFB reduction. Strong in TypeScript, GraphQL/Apollo, WebSockets, SSR/SSG, testing, and close design collaboration.

TECHNICAL SKILLS

Frontend Core: JavaScript (ES6+), TypeScript, React, Next.js, Vite, Responsive UI
State, Data & APIs: GraphQL (Apollo Client), REST APIs, WebSockets, SuperTokens, i18next
Styling & UI Systems: CSS-in-JS, Styled Components, Tailwind CSS, Storybook, Design Systems, UI components
Testing & Performance: Jest, Cypress, Enzyme, Vitest, Cucumber, Lighthouse, Web Vitals, SSR/SSG, code splitting, caching
Tools & Workflow: Git, CI/CD, Webpack, Gulp, Jekyll, AWS S3, Agile delivery, technical interviews, workshops

PROFESSIONAL EXPERIENCE

Lead Frontend Developer | DSpot z.o.o Aug 2019 - Present

Poland / Remote

- Led development of 3+ production React/Next.js applications, reducing average load times by 35% and consistently achieving Lighthouse scores above 88%.
- Architected a WebSocket-based live-results library for Lanetalk LiveScoring, improving real-time data display and responsiveness for high-traffic scoring interfaces.
- Built and improved public and internal interfaces across the Lanetalk ecosystem, including live scoring, ticketing, and mobile app-adjacent workflows for Android and iOS users.
- Reduced product delivery time by 38% by improving development workflows, design handoff, component reuse, and cross-functional coordination.
- Led migration and redesign of a legacy Angular application to React, improving loading times by 40% and increasing active users to 1K+ within three months.
- Conducted frontend technical interviews and led workshops on React patterns, performance optimization, and design/development best practices.

Frontend Developer | Revolico Clasificados S.L Nov 2017 - Present

Cuba / Remote

- Developed and maintained React-based applications for one of Cuba's top three most-visited websites, historically cited at 1.5M monthly page views.
- Built public-facing features and admin interfaces using React/Next.js, Apollo Client, GraphQL, Styled Components, SSR/SSG, and internationalization workflows.
- Implemented user feedback mechanisms that generated 1,000+ actionable insights, contributing to iterative releases and 30% stronger engagement metrics.
- Improved performance and backend/frontend collaboration, reducing Time to First Byte (TTFB) by approximately 25% and helping reduce server costs.
- Implemented unit and integration testing with Jest, Enzyme, Cucumber, and Cypress to support reliability on a high-traffic production platform.

Frontend Developer | OpsTalent Nov 2019 - Apr 2021

Poland / Remote

- Led development of a React/Next.js and GraphQL web application with responsive UI, animations, and production-ready interaction patterns.
- Designed and implemented UI components and micro-interactions that improved navigation experience and supported OpsTalent's public digital presence.

SELECTED PRODUCTS & PUBLIC LINKS

Revolico Web Application — Frontend Developer

High-traffic classifieds marketplace. Improved engagement by 30%, reduced TTFB by 25%, and supported scalable React/Next.js product development.

Tech: Next.js 14, React, GraphQL/Apollo, SuperTokens, i18next, Styled Components, Jest, Cypress, Cucumber

Web: www.revolico.com

Lanetalk LiveScoring, Tickets & Mobile App Workflows — Frontend Developer / UI collaborator

Real-time bowling scoring, tournament ticketing, and mobile-adjacent interface work. Focused on live data, readability, interaction quality, and performance.

Tech: React/Next.js, WebSockets, real-time UI, responsive interfaces, performance optimization

Live scores: livescore.lanetalk.com | **Tickets:** tickets.lanetalk.com | **Google Play:** play.google.com/store/apps/details?id=com.lanetalk | **App Store:** apps.apple.com/us/app/lanetalk-bowling/id493763132

DSpot Company Website — Frontend Developer

Responsive company website and digital product presentation with CMS-backed content and modern frontend delivery.

Tech: Next.js, GraphQL, Strapi

Web: www.dspot.com.pl/en

OpsTalent Website / Platform — Frontend Developer

Responsive animated web experience and product interface work for a B2B services company.

Tech: React, Next.js, GraphQL, animation, responsive UI

Web: www.opstalent.com

ReTime, Findr, Atlas, Risk Resource Group, Fitpass — Frontend Developer / UI implementation

Additional production work across admin interfaces, migrations, component implementation, responsive layouts, and design-to-code delivery.

Tech: React, Angular, GraphQL, UI components, responsive frontend architecture
